

TOLULOPE AJIDAHUN, MD

📍 Lagos, Nigeria | 📞 +234 814 558 0220 | ✉️ ajidahuntolulope@gmail.com

PROFESSIONAL SUMMARY

USMLE-qualified Licensed Medical Doctor with three years of post-qualification experience across primary care, emergency, outpatient, locum, and digital health settings. Skilled in virtual consultations, clinical assessment, structured documentation, patient education, and evidence-based decision-making. Experienced in medical AI training, LLM output evaluation, data annotation, telemedicine workflows, and EMR-supported care. Brings additional strengths in medical content strategy, health communication, strategic partnerships, research writing, and quality-controlled documentation. Enthusiastic about safe, accurate, patient-centered healthcare and the responsible use of digital health and AI to improve access, trust, and clinical outcomes.

EDUCATION

MBChB (Equivalent to MD, MBBS), Obafemi Awolowo College of Health Sciences, Olabisi Onabanjo University — 2023

AI & DATA RELEVANT EXPERIENCE

Medical General Expert for AI Training — SME Careers by SuperAnnotate

May 2026 – Present (Freelance)

- Performs medical data annotation, prompt evaluation, response ranking, and LLM output review for clinical accuracy, safety, and guideline alignment
- Applies RLHF-style human feedback, rubric-based quality assurance, error analysis, hallucination detection, and model behavior evaluation to improve AI training datasets
- Reviews health-related prompts, synthetic data, and model-generated explanations for clinical reasoning, factuality, relevance, clarity, and patient-safety risk
- Uses evidence-based medical knowledge to support dataset curation, red-teaming, content validation, and medically appropriate AI model refinement

Clinical Data Evaluation & AI Skills

- Applied structured clinical guidelines for diagnosis, triage, and referral — directly transferable to annotation and LLM evaluation tasks.

- Used EMR systems and AI-assisted workflow tools to optimize documentation accuracy and decision support.
- Conducted quality checks on clinical records, ensuring completeness, clarity, and compliance with protocols.

Research & Analytical Work

- Performed structured literature searches, data extraction, and critical appraisal for systematic reviews.
- Designed questionnaires, collected data, and conducted quantitative analysis using SPSS.
- Synthesized complex medical information into clear, concise written outputs — essential for AI training prompts and evaluations.

Technical Writing & Communication

- Skilled in generating high-clarity explanations, summaries, and guideline-based reasoning.
-

TELEMEDICINE RELEVANT EXPERIENCE

Medical PR & Strategic Partnerships — Dokitami

June 2026 – Present (Current Role)

- Serves as the on-screen medical voice for Dokitami’s digital health content, providing clinical credibility, medical commentary, and evidence-based messaging around GLP-1 therapies, wellness, and preventive health
- Collaborates with media, marketing, social media, and leadership teams on content strategy, scripting, production planning, brand positioning, and medically accurate health communication
- Represents Dokitami in strategic partnerships, stakeholder engagements, influencer collaborations, health and wellness events, media appearances, and educational presentations
- Supports brand-aligned social media page management by publishing approved content, engaging with enquiries, and ensuring all messaging remains medically sound, professional, and consistent with Dokitami’s communication strategy

Remote & Digital-Health Competencies

- Conducted virtual and in-person consultations using structured clinical guidelines for diagnosis, triage, and follow-up planning.
- Experienced with EMR systems, digital documentation, and AI-assisted workflow tools to improve efficiency and accuracy.
- Skilled in asynchronous and synchronous patient communication, including messaging-based care, follow-up instructions, and patient education.

- Managed high-volume caseloads (40–60 patients/day) with strong time-management and prioritization skills.
 - Provided guideline-based management for common telemedicine conditions: URTIs, dermatologic complaints, chronic disease follow-ups, mental-health screening, and medication refills.
 - Ensured safe remote care through red-flag identification and appropriate escalation/referral.
-

CLINICAL EXPERIENCE

Locum Physician — Multiple (Lagos)

Mar 2026 – Jun 2026

- Provides temporary physician coverage for outpatient and inpatient clinical services, supporting continuity of care and efficient patient flow
- Conducts patient consultations, clinical assessments, documentation, and follow-up planning in line with established protocols
- Collaborates with multidisciplinary team members to ensure safe, patient-centered care and appropriate escalation or referral when needed

Medical Officer — Mushin LGA

Mar 2025 – Feb 2026

- Independently managed acute and chronic outpatient cases
- Performed minor procedures and wound care
- Coordinated referrals to secondary facilities

House Officer — Alimosho General Hospital, Igando

Jan 2024 – Jan 2025

- Completed rotations in Internal Medicine, Surgery, Obstetrics & Gynaecology, Paediatrics, Psychiatry, and Emergency Medicine
- Managed inpatient and outpatient cases under supervision
- Assisted in surgical and obstetric procedures
- Performed emergency assessment and stabilization

Clinical Elective — National Hospital Abuja

Mar 2022 – Jun 2022

- Completed clinical rotations in the Trauma Centre, participating in emergency assessment, stabilization, and multidisciplinary trauma care
- Gained exposure to Dermatology, managing common skin conditions and assisting with outpatient procedures

- Participated in Psychiatry clinics, conducting supervised mental-status examinations and supporting holistic patient management
-

RESEARCH EXPERIENCE

Medical Student Researcher — Dept. of Community Health & Primary Health Care, OACHS, OOU

Nov 2022 – Jul 2023

- Conducted a study titled “*Perception and Practices of Prevention of Hepatitis B Among Health Workers in OOUTH*”
- Performed literature reviews, designed methodology, developed questionnaires, and analyzed data using SPSS
- Prepared and defended a full research report as part of the final medical professional examination

HIV-Associated Kaposi Sarcoma in Sub-Saharan Africa: A Systematic Review

Researcher | 2025–Present

- Conducted a systematic review on burden, treatment outcomes, and health-system challenges
 - Performed structured literature searches, data extraction, and critical appraisal
 - Synthesized findings and proposed evidence-based recommendations for improving cancer care
 - Manuscript completed and submitted for peer-review publication
-

VOLUNTEER EXPERIENCE

Mushin Local Government Monthly Community Outreach (2025–2026)

Medical Volunteer

- Provided basic medical consultations and health education
- Assisted with clinical screenings and triage

NNPC/SnepCo Vision First Annual Community Outreach (2025)

Medical Volunteer

- Supported large-scale vision screening exercises and patient education
- Collaborated with ophthalmic teams to streamline patient flow
- Provided general medical consultations, treatment, and referral services

EKOUNIMED Evangelism & Medical Outreach (2024)

Medical Team Volunteer

- Delivered free medical consultations and basic health screenings
- Assisted in triage and coordination of clinical services
- Provided health education on preventive care and lifestyle modification

De-Confidantes, NULMEDS (2019–2021)

Mental Health First Responder

- Trained by a consultant psychiatrist in early recognition of mental-health disorders
- Participated in crisis-intervention and de-escalation workshops
- Provided psychological first aid and facilitated referrals for individuals in acute distress

SARAFACDI4AFRICA (2020)

Volunteer

- Organized and executed a drug-abuse awareness outreach in a secondary school
 - Collaborated with school staff to ensure effective programme delivery
 - Engaged students in interactive discussions on substance-abuse prevention
-

LEADERSHIP EXPERIENCE

DOMESTIC AND SEXUAL VIOLENCE OFFICER (INTERIM) — Mushin Local Government PHC

- Prepared and submitted detailed reports on domestic and sexual violence cases to support timely intervention and policy action
- Coordinated multidisciplinary response efforts with social workers, law enforcement, and healthcare teams to ensure survivor-centered care
- Ensured compliance with safeguarding protocols during the IMPACT renovation program

HOUSE OFFICER REPRESENTATIVE — Alimosho General Hospital, Igando

- Coordinated orientation and onboarding programmes for incoming interns
- Facilitated welfare initiatives to enhance productivity and morale
- Streamlined communication channels for timely dissemination of clinical and administrative updates
- Advocated for improved working conditions, contributing to better duty roster planning and resource allocation

VICE REGIONAL COORDINATOR — Federation of African Medical Students (2022/2023)

- Oversaw regional project implementation across multiple medical schools
 - Led initiatives focused on public health advocacy, student leadership development, and inter-school engagement
 - Managed communication between regional representatives and the executive council
 - Coordinated high-impact events, including webinars and outreach programmes, reaching hundreds of medical students across West Africa
-

AWARDS & ACCOMPLISHMENTS

- Best Student in Psychiatry, OACHS (2023)
 - Distinction Honors in Obstetrics & Gynaecology
 - Final Year Class Award for Academic Excellence
 - Top Five Shortlist — **Best Essay, Literary Award for Medical Students (2022)**
-

LICENSES & EXAMINATIONS

- Medical and Dental Council of Nigeria (MDCN) — License valid through 2026
 - **United States Medical Licensing Examination (USMLE) Step 1** — Passed
 - **United States Medical Licensing Examination (USMLE) Step 2** — In view
-

SKILLS

AI and Data Skills:

Data Annotation & Quality Review • LLM Output Evaluation • Structured Data Extraction • Guideline-Based Decision Making • Prompt Evaluation & Error Analysis

Technical & Digital Skills:

Electronic Medical Records (EMR) • SPSS • Microsoft Office Suite • AI-Assisted Clinical Workflow Tools • Telemedicine

Research & Analytical Skills:

Literature Review • Data Collection & Questionnaire Design • Quantitative Data Analysis • Systematic Review Methods • Scientific Writing

Clinical Skills:

Outpatient & Primary Care Management • Emergency Assessment & Stabilization • Antenatal Care • Chronic Disease Management • Minor Procedures & Wound Care • Triage & Patient Flow Optimization • Infection Prevention & Control (IPC)

Leadership & Communication:

Team Coordination • Patient Education • Crisis Communication & De-escalation • Community Health Advocacy • Report & Policy Writing • Stakeholder Engagement

Soft Skills:

Problem-Solving • Adaptability • Empathy • Time Management • Mindfulness • Ethical & Professional Conduct

INTERESTS

Global Health & Health Policy • AI in Medicine • Sexual & Reproductive Health Advocacy • Digital Health Innovation • Community Outreach • Mental Health Awareness • Medical Education • Research Writing • Photography • Creative Writing • Fitness & Outdoor Activities • Public Speaking
